

## **DEPARTMENT OF OBSTETRICS AND GYNAECOLOGICAL NURSING.**

The obstetrics and gynecological department was established in the year 2010. The department goal is to provide quality professional services and performs the task holistically with reference to the women , newborn, and their families.

The department of obstetrics and gynecological nursing aims to maintain excellence in the field of education, service and research contributing to evidenced based reproductive health care.

The departmental lab is well equipped with birthing simulation, obstetrics manikins, pelvis, fetal skull, various obstetrical instruments and different kinds of models etc.

The department imparts the knowledge on OBG (N) students within the framework of the curriculum plan of the college of Nursing.
